PROJECTS

OnlyDevs | https://github.com/mcstewart76/OnlyDevs | https://only4devs.herokuapp.com/
- OnlyDevs is a great way for developers to connect and collaborate. This app allows like minded devs to compare and contrast each other's work, as well as plan out future projects.
- Responsibilities: Frontend, Search functionality integration, UI
- (MERN Stack) MongoDB, Express, React, Node, mongoose, Apollo, graphql, jwt encryption, CSS, Bootstrap

See additional projects in portfolio.

EXPERIENCE

Long-Term Substitute Teacher   2021 – Present
Woodward Academy   College Park, GA
Aid students with classroom assignments and explaining topics, catering to each individual student's methodology of learning in robotics, and coding. Helped coding students implement and deliver coding for drones to fly via UDP networking using Node.js, and certain npm packages. Teaching robotics students to code in java, as well as block oriented coding practices.

Machine Operator   2021
SpeedMachine LLC   Atlanta, GA
Operated on Hass CNC Mills, a VF2ss and VF4. Consulted with clients to produce products that met their needs. Delivered parts to be manufactured in a timely manner. Consistently used creativity to find repeatable manufacturing techniques to solve complex issues.
Key Accomplishments:
- Aided in manufacturing parts for Tesla, Core4 Motorsports, Wahoo Fitness

EDUCATION

Georgia Institute of Technology, Atlanta, GA   2021 - 2022
Full Stack Web Development Certificate

Kennesaw State University, Kennesaw, GA   2017 - 2020
BS Mechanical Engineering, Minor in Applied Mathematics

TECHNICAL SKILLS

Languages: HTML, CSS, Javascript, MongoDB, Express, React, Node
Applications: MySQL, Matlab, Solidworks, Excel
